

Strategy Tool: Using Journals to Build Authentic Relationships
Journaling in my Classroom

Write some of your ideas for journaling activities:

Ideas for journaling activities (e.g., Write about a time you felt grateful)

Then, create a plan for using journals with students in your classroom.

What journal activity will I use?

How often will the students journal?

When will I read all of my students' journals?

When and how will I meet with my students to discuss their journals?
